MESSAOUDENE MOHAMED

PROFILE

Motivated full-stack developer passionate about building efficient and scalable applications. Adaptable and eager to learn new technologies. Excited about tackling challenges and continuously improving skills in software development.

COMPETENCIES

- **Frontend:** HTML, CSS, JavaScript, Tailwind CSS, React JS, Mui
- **Backend:** Express JS, Laravel PHP, Rest API, Authentication (OAuth, JWT, Sessions)
- **SQL databases:** MySQL, PostgreSQL **NOSQL databases:** MongoDB, Redis
- **ORMs:** Sequelize, Mongoose
- **Other**: Git & GitHub, Linux, Docker

EDUCATION

**NATIONAL HIGHER SCHOOL OF TELECOMMUNICATIONS
AND INFORMATION AND COMMUNICATION TECHNOLOGIES**

Oran, ICT Engineer | 2020 -------> June 2025

PROJECTS

Social Media Website (Full-Stack Project)
Technologies: React.js, Material-UI, Node.js (express js), PostgreSQL, Sequelize.

Developed a full-stack social media platform with session-based authentication, profile management (update, follow/unfollow), post interactions (likes, comments), media uploads, and Light/Dark mode support.

Weather App (Frontend Project)
Technologies: React.js, Material-UI, Axios

Built a responsive weather app that fetches real-time weather data via API, supports city search, location-based detection, and 5-day forecasts, with Light/Dark mode.

Authentication System with Passport.js (Full-Stack)
Technologies: React.js, Material-UI, Node.js (Express.js), MongoDB, Passport.js.

Implemented secure authentication with multiple strategies: OAuth (Google, GitHub, Facebook), session-based, and local (email/password).

ShareFiring Landing Page & Dashboard (Freelance Project)
Technologies: React, Tailwind CSS, Inertia, Laravel, MySQL.

Delivered a complete freelance project including a modern marketing landing page and an interactive dashboard for managing content and users. Integrated responsive UI with Tailwind, dynamic routing via Inertia.js, and backend APIs in Laravel with MySQL database support.
